

Muhammad Ali Shah

MERN Stack Developer

📍 Lahore, Pakistan 📞 +92 300 2931512 ✉️ muhammadali.mern067@gmail.com
🌐 linkedin.com/in/muhammad-ali-mern067 🐙 github.com/syedali067

Professional Summary

Motivated MERN Stack Developer and Computer Science graduate with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Proficient in consuming and integrating RESTful APIs, implementing JWT-based authentication, and designing responsive UIs with Tailwind CSS. Passionate about writing clean, maintainable code and delivering production-ready web solutions.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Redux Toolkit, React Router DOM, React Hook Form

Backend: Node.js, Express.js, RESTful API Development, JWT Authentication

Database: MongoDB, Mongoose, MySQL

Tools & Platforms: Git, GitHub, Docker, Appwrite, Firebase, VS Code, Vite, Vercel

Professional Experience

Junior MERN Stack Developer

September 2024 – April 2026

Codedile Solutions

Sargodha, Pakistan

- Built and maintained responsive React.js web interfaces, consuming RESTful APIs and managing application state with Redux Toolkit
- Integrated third-party and internal REST APIs for dynamic data rendering, form handling, and user authentication flows
- Worked with MySQL databases for data modeling and writing optimized queries to support frontend data requirements
- Implemented JWT-based authentication on the frontend including protected routes, token storage, and session management
- Developed reusable React components and maintained consistent UI patterns using Tailwind CSS across projects
- Collaborated with the team using Git and GitHub, participating in code reviews and following Agile workflow
- Debugged and resolved frontend issues, improving application stability and user experience

Projects

MegaBlog | *React.js, Appwrite, Redux Toolkit, Tailwind CSS* | 🐙 github.com/syedali067/megablog | 🌐 Live Demo **2025**

- Built a full-stack blog platform featuring user authentication, rich text editing, image uploads, and full CRUD operations
- Managed global auth state with Redux Toolkit; implemented protected routes using React Router DOM v6
- Used Appwrite as backend service for database, file storage, and authentication; deployed live on Vercel

React Mini Store | *React.js, REST API, Tailwind CSS* | 🌐 react-ecommerce-store-sable.vercel.app **2024**

- Developed a fully functional e-commerce frontend with product listing, cart management, and checkout flow
- Integrated REST APIs for real-time product data and implemented state persistence using localStorage
- Built responsive UI components with clean architecture and deployed on Vercel

Kinsyn Patient Portal | *Vue 3, Docker* | 🐙 github.com/syedali067/kinsyn-patient-portal **2025**

- Built a frontend patient portal using Vue 3, demonstrating adaptability across modern JavaScript frameworks
- Containerized the application with Docker for consistent development and production environments
- Implemented responsive UI components and clean project architecture following industry best practices

Virtual Museum Tour | *Unity, C#, Firebase, LiDAR Scanning* | 🐙 github.com/syedali067/virtual-museum-tour | 📺 Demo **2024**

- **Final Year Project** — Built an immersive Unity-based virtual museum of Sir Syed Memorial Museum with LiDAR-scanned 3D artifacts and realistic scene navigation
- Integrated Firebase Authentication for secure user access and implemented multi-scene Unity management
- Presented and defended the project at university level; demonstrated strong problem-solving and independent research skills

Education

Bachelor of Science in Computer Science (BSCS)

August 2020 – August 2024

COMSATS University Islamabad, Abbottabad Campus

Abbottabad, Pakistan

- Relevant Courses: Data Structures & Algorithms, Database Systems, Web Technologies, OOP, Software Engineering
- Final Year Project: Virtual Museum Tour (see Projects section)

Additional Information

Languages: Urdu (Native), English (Fluent)

Interests: Full Stack Development, REST API Design, Open Source Contribution
